## What is Claritin?

**Claritin** contains loratadine, an effective non-drowsy antihistamine that relieves allergy symptoms such as runny nose, sneezing, itchy and watery eyes, and hives caused by hay fever or other allergies. Claritin's selective action blocks peripheral histamine receptors, minimizing sedation often related to older **antihistamines**.

Key benefits:

- Fast, long-lasting relief from seasonal allergies
- Non-drowsy formula suitable for daily use
- Available as tablets, chewables, and liquids for all ages
- **OTC** availability in many countries for easy access
