

# Frank Gesing

Oil City, PA

(814) 657-2164 fjgesing@gmail.com

## OBJECTIVE

Seeking the position of Department Manager to continue excelling as a leader and mentor, while maintaining a safe, efficient, and productive work environment.

## PROFESSIONAL SUMMARY

Operations, Training, and Safety Supervisor experience. Demonstrated mastery of planning, execution, and after-action audits to constantly improve products. Capable of providing outstanding community service, innovative program management solutions, approachable mentorship, and tireless improvement.

- Communication
- Leadership
- Decision Making
- Adaptability/Flexibility
- Strong Mechanical Aptitude
- CDL A
- Basic Life Support CPR/AED
- Microsoft Office Suite

## EXPERIENCE

- **Subject Matter Expert.** Collected feedback from end users, interfaced with community leaders, and liaised with experts in their field to improve future growth of resources, training programs, and community involvement. Ultimately, trained users in new coaching updates and capabilities, resulting in improved program effectiveness.
- **Mentorship.** Developed and implemented personnel training programs to enhance skills and knowledge. Conducted performance reviews, administered disciplinary actions when necessary, and addressed personnel concerns. Worked with personnel at *their* level to ensure communication went up and down the chain of command freely, without fear of reprisal.
- **Leadership.** By prioritizing humility, I create a space where personnel feel comfortable asking questions and making mistakes. My credibility, built on knowledge and experience, assures them they're receiving sound guidance. Finally, my approachable demeanor makes me readily available for support and encouragement, fostering a sense of trust that empowers them to reach their full potential
- **Safety.** Coordinated the implementation of Navy Safety and Occupational Health (SOH) Program. Identified hazards, unsafe work practices, and health hazardous conditions. Led in the evaluation of workplace hazards, including periodic workplace monitoring. Prepared various safety and mishap reports, maintained hazard abatement program documentation, and aided in mishap investigations. Arranged and conducted indoctrination and periodic SOH training.

## EDUCATION

- Bachelor of Science, Fire and Emergency Services, Embry Riddle Aeronautical University
- Emergency Medical Technician, Skagit Valley College
- Navy Instructor-Classroom delivery and curriculum development (NEC 805A/9502)
- American Motorcycle Institute, Certified Honda, Ducati, Harley-Davidson Technician
