CAREER OBJECTIVE

Diligent technician with 9+ years of experience and a proven knowledge of Plc, Ethernet, process automation, instrumentation and control system with world class manufacturing, and productivity improvement. Aiming to leverage my skills to successfully fill the vacant Technical role at your company.

EXPERIENCE

CARNIVAL CRUISE LINE PLC, Electrician Jan 2022-present

- Performed and achieved in-depth electrical acceptance testing of completed panel's hardware, including continuity and high potential isolation testing.
- Installed and operate wide variety of hand and power tools including, grinders, power saw, drills, precision measuring instruments and electronic testing devices.
- Inspection and testing of all automation system, cameras, Ethernet, telephoned system
- Achieved in-depth periodic maintenance on electrical motor, generators, alternator and propulsion motors, zero sequencing with medium/low voltage on switchboards.
- Proficient in HESS-MS Health, environment, safety, an security management system.
- Tested and rectified Grounding and Earth leakages in Substation and panels.

INTERNATIONAL BREWERIES PLC, Process Artisan Electrical Jan 2018 - 2021

- Installation and commissioned of RGB bottle lines, process machines, electrical motors and drives.
- Responsible for the interpretations of electrical and electronic schematics diagram and mechanical layouts to diagnose equipment problems or faults.
- Tested, troubleshoot and calibrated Automatic and manual steam, Pneumatic air, valve and flow equipment in the field.
- Designed, implemented and administered a new back-up programmed for all electrical panel and software.
- Interpreted and validated technical issues, test solutions and follow-up to implement with immediate solution.
- Executed Hourly maintenance on Diesel and Gas generator, Boilers, Compressor and chillers and glycol system with P&ID valves systems.
- Successful installation of Siemens S7 300 Main Plc Module, 11-80HP frequency inverter and safety relays
- Mastermind all Safety rules and regulation to maintain safe work environment.

SHONGAI PACKAGING INDUSTRIES LIMITED Sep 2012 - Jan 2018

- Worked directly with head of department and the subsidiary department, production and quality to achieve to achieve 90% of planned production.
- Installed, repaired and tested frequency converter and electrical and electronic systems in drives and motors.

EDUCATION

City and Guild of London*IVQ Diploma Engineering (Jan 2020)***Allover Central Polytechnic***National Diploma Electrical and Electronic Engineering (Jan 2017)***National Open University of Nigeria***B.sc Information Technology (in view) (2021)**Completed coursework towards IVQ) Level 3***Government Technical College***Advance Technical Certificate: Electrical Installation Maintenance (Jan 2014)***ADDITIONAL SKILLS**

AC/DC control circuitry	Industrial safety equipment	5S/5WHY	HVAC experience
PLC/ SCADA	Engineering drawings/standards	Welding & inspection process	Project management skills
Control & Automation	Hardware	Mechanical	Welding
Power tools	Problem solving	Project management	Quality
Safety/HESS-MS	Schematics	Troubleshooting	Ethernets

CERTIFICATIONS

- Basic Safety Training Mandatory
- Crew Security Awareness with Designated Duties VI/6
- Siemens Step7 Manager
- General Basic Electrics, Commissioning And Troubleshooting, Krones, Ag
- Basic And Advance Electro-Pneumatic, Krones Ag
- Inspections System- Commissioning And Troubleshooting, Krones Ag
- Videojet Coding Machine- Commissioning And Troubleshooting, Calypso
- Introduction to factory automation, Omron
- Insulation Resistance Testing, Fluke
- Digital Multimeter Basics, Fluke
