OBJECTIVE

I'm trying to make enough to be able to get by and give my kids everything that they need. I can pretty much do anything that is thrown at me. I learn really quick and will accept any challenge that is put in front of me. I have great computer skills and have worked mainly manufacturing jobs so I know the basics of what needs to be done, though every job does have its differences. I want a job that's not through a temp agency.

If there are any questions that you may have I would be more than happy to answer any of them during the interview process if accepted. I am determined and I am reliable to show up and do the task I am assigned as quickly and safely as I need to. I will always give full effort and nothing less.

EXPERIENCE

Family Dollar
