Honorable Discharge

Inactive Reserves/ served on replacement technician roster as KC-10 deployment reserve.

Air Force

Honorable Discharge

Aircraft/Heavy equipment/Hydraulic/Pneumatic/tech-mechanic/Troubleshooter.

EDUCATION

Venango Technology Center

Oil City, PA

Vocational/Technical Certificate

Major: Maintenance technology course

Instruction in electrical hi/lo voltage, electrical component operation.Hydraulic/pneu/heating,a/c.

Venango Technology Center

Oil City, PA

Vocational/Technical Certificate

Minor: Maintenance Tech

US Airforce technical school

Chanute IL/Ellworth SD Robbins, GA

Vocational/Technical Certificate

Rome NY. Community College

Rome, NY

Post-secondary education, no degree or certificate

US Airforce technical school

Chanute IL/Ellworth SD Robbins GA, GA

Vocational/Technical Certificate

Votech

Oil City, PA

Vocational/Technical Certificate

Major: Auto mechanics

Minor: Electronics

Venango Christian

Oil City, PA

High school graduate or equivalency certificate (GED)

Major: Academics

Minor: Votech

SKILLS

- General /Mechanical/
Electrical/ Hydraulic
Pneumatic Skills
- I have a broad range
understanding of system
troubleshooting

QUALIFICATIONS AND ACHIEVEMENTS**Family/Work/Leisure**

In all my endeavors, my wife and i having raised our three children stressfully and successfully, whether it be work, leisure I try and use practical methods, with discipline. My leisure interests are my family, weight lifting /auto mechanics/walking/Life.

United States Airforce achievement award

I recieved this award jointly with another hydraulic tech. The base I was stationed at recieved a KC135 tanker aircraft that was not stationed at our base, most likely out desperation after six aborted inflight refueling flights and many thousands of gallons of dumped fuel into the air. We were known for our dogged determination in troubleshooting of other bases aircraft and it was looked at by other base technicians. After twentythree hours of straight work soaked with rain snow and hydraulic fluid we found a very internally broken check valve which held the refueling boom stationary in flight so it would not extend and retract by itself. "Knowledge and Determination".

United States Air force achievement award

Received award for successfully troubleshooting landing gear extension problem while B52 bomber on landing approach it was a simple popped circuit breaker but the electricians referred the problem to hydraulics which was my job, so I successfully analyzed their

problem.

Joy Mining and Machinery pre employment test.

Completed pre-employment test at Joy in 2006 which included blue print reading successfully completed.

CERTIFICATIONS AND LICENSES

CDL class A /dbl/trpl/ tn issued by Penndot in Pennsylvania

Issued: 06/2018
Expires: 06/2022

Forklift operators license. issued by Signature Moulding and Millwork in Pennsylvania

Issued: 11/2005

Maintenance Tech issued by Venango Technology Center in Pennsylvania

Instruction in electrical theory hi/lo voltage and electrical component operation hydraulic/pneumatic,plumbing and heating/airconditioning.
