Current Quality Inspections Supervisor. Highly motivated, self-starting individual with over 14 years of experience in Quality Assurance. Advanced experience in many computer applications. Highly versed in equipment troubleshooting and repair in high stress environment and 24-hour support of operations.

## EXPERIENCE

5/2012 – PRESENT

### QUALITY INSPECTIONS SUPERVISOR, WEBCO INDUSTRIES, OCTD

I am currently in charge of the Quality Inspections group. This includes the Quality Lab. Some responsibilities of the lab include mechanical gage calibrations for all measurement gages in the Oil City and Reno facilities, destructive testing for mechanical properties, verification of quality per customer and various industry standards. The Lab is responsible for metallurgical evaluations per said standards and process control. I am also in charge of the Quality employees that give assistance to the operations group during daily production problem solving.

I am also responsible for all Non-Destructive Testing Technician and equipment including preventative maintenance, repairs, installation, extensive planning for new equipment, in-depth electrical and mechanical troubleshooting in high stress situations and operations Theory, general and specific training (classroom and practical). Arch Flash Trained.

Another part of my position is managing Senior Inspectors and their daily activities. In this role, I plan and facilitate meetings throughout each month, partake in audits, collect and collaborate data in regard to non-conforming material, maintain spare inventories, utilize milling machines, lathes and other various equipment for sample and/or part preparation, manage employees, collaborate with other departments, etc.

1/2006 – 5/2012

### NON-DESTRUCTIVE TESTING TECHNICIAN, WEBCO INDUSTRIES, OCTD

Weekly and monthly preventative maintenance tasks, perform offline inspections at Oil City and Reno facilities and at customer facilities, Daily problem solving including fixing equipment and helping operators set-up, Equipment preparation, maintain critical and/or repair parts to increase uptime of equipment, periodically set-up equipment to decrease set-up times, repair and/or replace internal components in NDT computers, effectively and accurately operate and train personnel on a EDM machine, maintain and good relationship with vendors and customers, analyze defects found with NDT equipment which includes creating a specimen that can be handle and then reviewed in a microscope. Recorder all items that I fixed. Kept track of all NDT training records of employees. In-depth electrical and mechanical troubleshooting in high stress situations and operations Theory, general and specific training (classroom and practical).

11/2004 – 1/2006

### SENIOR INSPECTOR, WEBCO INDUSTRIES, OCTD

Daily interaction and problem solving with the operations group. Ensure all work centers followed each detail to guarantee that the material they were producing would meet all customer and industry standards. Enter Non-conformance reports and verify the material containment and disposition. Highly versed in all processes and related work instructions. Trained employees on work instructions and customer requirements. Detailed record keeping required.

8/2002 – 11/2004

### OPERATOR, WEBCO INDUSTRIES, OCTD

Continuously strived to move forward in the company through good work ethics and conveying high integrity and character. Moved through or past various positions and shifts quickly including, Craneman, End Welder, Utility Operator and Cut-Off Operator.
