+1 318 225 5319

A results-driven and focused individual in search of a position that allows for the application of my gained skills of organization, problem-solving and machining skills to support a team. I enjoy being a part of the production process, applying my techniques to produce and modify products. I strive to ensure excellent results on every project.

Willing to relocate: Anywhere

Authorized to work in the US for any employer

## Work Experience

---

### **LogYard Field Tech/Heavy Equipment Operator**

Weyerhaeuser - Simsboro, LA

June 2021 to Present

- FRONT END LOADER OPERATOR
- TRAINED ON THE FORMAT LINE
- TRAINED AS A KNIFE GRINDER
- FORKLIFT OPERATOR
- BOBCAT OPERATOR

### **Press Operator**

PRESS TENDER, GRAPHIC PACKAGING - West Monroe, LA

September 2018 to May 2021

I was part of the team who was responsible for manufacturing paperboard and paper-based packaging for some of the world's most recognized brands of food, beverage, foodservice, household, personal care, and pet care products.

- Understand and follow all safe operating procedures
- Complied with all company and departmental safety, quality, productivity, and security procedures.
- Ensured accuracy and compliance of operator documentation involving all aspects of the assigned machines, which includes production reports, specification verifications, quality requirements, machine logbooks and checklists
- Communicated all machine and department issues effectively to department managers and supervisors and presented data-based solutions in keeping with Continuous

Improvement Objectives

- Understand and monitor the 5S
- Walked and stood on concrete floors
- Performed other duties as assigned by my department manager

### **Crew Leader**

SJOB SERVICE - Midland, TX

January 2017 to September 2018

I was responsible for assembling or repairing oil field equipment by using hand and power tools. I performed other tasks as needed. Keeping pipe deck and main deck areas clean and tidy.

- Guide cranes to move loads about decks.
- Unscrew or tighten pipes, casing, tubing, and pump rods, using hand and power wrenches and tongs.
- Walk flow lines to locate leaks, using electronic detectors and by making visual inspections, and repair the leaks.
- Supply equipment to rig floors as requested and aid roughnecks.
- Move pipes to and from trucks, using truck winches and motorized lifts, or by hand.
- Dismantle and repair oil field machinery, boilers, and steam engine parts, using hand tools and power tools.

## **Production Tech**

CSP - Cullen, LA

January 2016 to December 2016

I was responsible for assembly, machining, quality checks, tool changes, and problem solving of manufacturing processes and equipment. I am capable of functioning in a manufacturing team environment. I understand, support, and execute all work in safe manner and supply to a culture that promotes safety as its overriding priority. I can perform bench, floor, or conveyor assembly work, typically involving standardized work elements. I can comprehend and follow written work instructions.

- Maintain, troubleshoot, and perform tasks on all equipment in assigned workspace.
- Perform predictive, preventive, and reactive maintenance activities
- Work in a dynamic and fast paced environment
- Support production startup and throughput goals
- stood and/or walk for long periods daily while frequently bending, twisting, reaching and periodically lifting to 40 lbs.
