## SKILLS

Experience in fields of fast food, outdoor lawn care and landscaping, demo and home rehab, factory work, shipping and receiving industry, and general labor.

## EXPERIENCE

### **Papa John's Pizza, Bedford, Indiana** – *Worker*

February 2020 – August 2020

- Overall I really enjoyed having my first job here. The managers were awesome, and the other coworkers were good enough.
- I was in charge of dealing with customers. Working the window, and the cash register was a very common place to find me.
- If I had time to, and was older, I happily would have moved up in this company.

### **InFab Co., Bedford, Indiana** – *Assembler*

April 2021 – June 2021

- The work here was extremely repetitive, and overall just a nasty work environment.
- I left the company after the owner demanded I work during my Senior Trip, which he had clearly given me time off for. Lying doesn't stand in my book.

### **Amazon CVG5, Hebron, Ky** – *Worker*

September 2021 – Current

- After starting here, I set my sights on the inbound portion of the building, which is arguably the hardest working area in the entire warehouse. I love the hard work of unloading many semis in a shift. I still go to Inbound every time I work.

## EDUCATION

### **Stone City Christian Academy, Bedford, Indiana**– *GED*

August 2008 – May 2021

Attended SCCA for my entire Kindergarten – 12th Grade, though was not able to get my diploma here. In the last 2 months of school I fell behind and was not

permitted to finish my remaining work during the summer. I am currently at college in Cincinnati, Ohio.

**Facts about me:**

I'm a very quick learner. I love to reach achievable goals. I am a natural leader, and would love to eventually manage others. I understand the importance of common sense, and use it to my advantage often. I love working hard and succeeding, and I am very independent.
